

# Core Refund Process

When you ship back your old cluster (or any item you may have), we will send you a check for the current core value. We generally purchase speedometers and climate control units. The core value is based on current stock levels and actual core condition, as well as current supply and demand.

**Some items have no value to us.**

**Contact us first so you don't waste your time shipping it.**

**Phone: 262-456-4147**

Please allow several weeks for your core item to be processed, tested, evaluated, and the check to be mailed out.

**Fill out this form, and include it with your core cluster.**
